

**Financial Education for the Boys & Girls Club**  
**April 2009**

Youth from the Davenport Boys and Girls Club were jumping out of their seats during Ascentra Credit Union's youth financial education class. The Davenport Club members were taught about the importance of saving money, how to open a savings account, and the benefits of using a credit union to save money. Activities, treats, and give a ways including piggy banks to help get them started on saving their money kept the young ones active and participating during the two day class.
